PROJECTS

Doctor Appointment Booking App | Kotlin, Jetpack Compose, Firebase Repository   **2025**

- A mobile application built using **Android Studio** that allows patients to browse top doctors, view profiles, and book appointments easily.
- Provides a simple and user-friendly interface for managing doctor details and patient bookings through **Call** and **SMS**.
- Used **Kotlin** and **Jetpack Compose** for frontend development and **Firebase Realtime Database** for backend data handling.

Resume Builder Web App | Django, Html, CSS, Bootstrap, MySQL, XHTML2PDF Repository   **2025**

- Developed a full-stack web app that enables users to create, view, and download professional resumes as PDF files.
- Implemented user authentication with secure **login/register** functionality.
- Designed dynamic PDF generation — sections appear conditionally only when content exists.
- Connected **MySQL** database to store and manage user data efficiently.

Kotlin Multiplatform Documentation | Kotlin, Cross-platform, GitHub Repository   **2025**

- Authored comprehensive documentation on **Kotlin Multiplatform (KMP)**, covering setup, architecture, and use-cases.
- Structured the notes in a professional GitHub repository to demonstrate cross-platform development knowledge and technical writing skills.

EXTRACURRICULAR

Udemy Certificate — 2025
Completed a hands-on Android development course using **Kotlin** and **Jetpack Compose**, building small apps with modern UI design and app architecture.
